FIRE SCARE AT REFORM SCHOOL.

The \$40,000 girls' dormitory at the State Reform School, near Greendale, narrowly escaped destruction by fire Sunday night, but was saved by the heroic efforts of the matron and some of the women supervisors who have quarters in the building.

The blaze was discovered about 9 o'clock and was caused by one of the girl inmates dropping a lighted coal oil stove, which she was carrying from the lower floor to the upper floor.

Of Tobacco Were Total Sales On The Maysville Market Last Week.—Report of Supervisor Clift Has The Right Ring.

The Maysville Market sold the last week 1,943,180 pounds, prices ranging from \$2.00 to \$27.00. The quality of offerings is gradually improving. The market is likewise showing strength. All grades sold for full values.

The market has been very steady and every type is selling for as much, and some \$2.00 higher, than before the holidays. The warehouses are all cleaned up and pushing this week's business. Wagons have been unloaded promptly and the crops sold promptly. Practically no rejections.

Everyone is thoroughly satisfied with the market.

MAY HEAD COMMITTEE

Stanley F. Reed, Maysville Representative Tipped for Chairman of Appropriations Committee.

From the best information obtainable it appears almost certain that Speaker Terrell will appoint Representative Stanley F. Reed, of Maysville, who withdrew from the race for Speaker, as chairman of the important Committee on Appropriations; Representative John McDyer, of Ashland, Boyd County, Chairman of the Committee on Good Roads; a representative from Louisville or Newport for Chairman of the Committee on Municipalities and probably put Representative W. L. Hampton, of Fulton, Fulton County, at the head of the committee in charge of liquor legislation.

Representative Elwood Hamilton will head the House Committee on Revenue and Taxation as previously forecast in The State Journal.

P. S.—Mr. Saufley was appointed chairman.

THE PROGRESS OF THE

Independent Warehouse!

Is evidenced by the fact that we are holding all our old customers and gaining many new ones. This is due to the manner in which we conduct their business for them. Our efforts are always in the interest of the seller and the average of \$19.17 made by George Wilson, Adams county, on 3,445 pounds, and the average of L. M. Morgan, Mason county, \$17.92, show that we get results. One basket reached \$25 and several went past \$20. The experience our force has had gives us the right to say "We Lead; Others Follow." Bring your tobacco and let us prove it to you.

HISTORICAL PAPER

Attorneys Discover Deed Made to Richard Calloway Who Was in Fort at Boonesboro, 116 Years Ago.

(Winchester News.) While Messrs. Paine and Jarvis, two attorneys who are here abstracting titles for the Kentucky Pipe Line Co., which is building a gas line from Louisville to West Virginia, were at work in the County Clerk's office Friday, they discovered a deed made by John Holder of Clark County, to Richard Calloway, who was in the fort at Boonesboro with Daniel Boone.

The deed was for a tract of land on the Kentucky River, near Boonesboro, and is dated October 4, 1798, which makes the document 116 years old next October. The price paid for the land was one thousand pounds current money of Kentucky, the States in that day having their own money.

While at the same kind of work in Woodford County, Messrs. Paine and Jarvis found a will in which Daniel Boone was named as an executor and Squire Boone was a witness to the will. This document was dated 1787.

NEW POLICE RULES

Maysville Bluecoats In a State of Mental Perturbation.

For the first time in years the police and chief of police are under the direct supervision of the Police Committee of the City Council of this city, and the committee have promulgated some new rules for the police to observe.

Among the rules is one that no police officer shall ride on a street car, but must walk to and from his beat.

Another is that no policeman shall enter a saloon unless called in by the proprietor or someone in charge in case of a disturbance in the place.

The police say this rule deprives them of their authority, as they are supposed to enter a saloon to see that the city ordinances are lived up to, and under this rule they cannot enforce the laws, that a saloon-keeper conduct a crap game in his place of business and they would have no right to interfere unless called in by the proprietor himself.

ELECTRIC SIGNS!

The distinguishing air of quality which a first-class Electric Sign gives to a store is the element which gives a sign its greatest value as an advertising medium and investment. The impression it makes is good. It blazes forth to the public that there is business enterprise, merchandise and methods up-to-date. It affects the entire atmosphere of the business district. The stranger says, "It is a live town," and publishes it abroad.

It is the Sign of the Times.

What Is It?

The usual cup of coffee contains about 2 1/2 grains of caffeine, a drug which often produces aches, ails and discomfort; but the habit can be quickly overcome by using well-made POSTUM.

One of the most pleasing features of his change from coffee to Postum is the total absence of a sense of something missed.

But more important is that "good all over" feeling of returning health; and it's the finest trade possible to quit coffee and get well.

Postum, made of prime wheat and a small per cent. of New Orleans molasses, is a pure food-drink. It is wholesome and nourishing; and has a delicious, snappy flavor resembling that of Old Gov't Java, but is entirely free from the coffee drug, caffeine.

Anyone can make a stand for the old-fashioned fun that comes with health and the power to "do things." Suppose you try it!

"There's a Reason" for POSTUM

Postum now comes in two forms:

Regular Postum—must be boiled 15 to 20 minutes.

Instant Postum—is a soluble powder. A scant teaspoonful stirred in a cup of hot water dissolves instantly.

The convenience of Instant Postum is apparent. But, when prepared according to directions, both kinds are exactly the same. The cost per cup is about equal.

—Grocers everywhere sell both kinds.
